ZEGE TECHNOLOGIES

Job Title	**Front-End Software Developer**
Position Type	Flexible
Location	Nairobi, Kenya
Contact	hr@zegetech.com

Zege Technologies(ZEGETECH) is a Software Development Firm that builds innovative products around business process automation and financial technology that change the way business is done.

We embrace innovation and unconventional thinking. Africa is our home and we want to empower the people of Africa through technology and innovation.
We believe in **R**eliability, **I**ntegrity, **S**atisfaction, **E**xcellence and most of all making every journey fun and exciting for our customers and our team.

We are looking for like-minded people who want to make an impact and **RISE** with us as experienced **Front-End Software Developer** (AngularJS 2). You should be able to build intuitive UX and UI that show passion and beauty and you should be more than eager in getting engaged in the mobile ecosystem here in Africa.

This is how you rise to the occasion:
- Architect, build and test applications on the AngularJS 2 Stack
- Find creative and elegant solutions to complex problems and development requirements
- Prototype new ideas quickly to win arguments with code
- Quick development cycle
- Build intuitive UX and UI that shows passion and beauty
- Ability to train and manage other developers

What you bring:
- 3+ Years in AngularJs/SPA development with at least 1 significant project deployed
- Test driven development on Karma, Jasmine, Selenium etc. with end-to-end deployment
- Design experience of print and online media
- Animation experience advantageous

You are a technical master and know:
- AngularJS 2, Bootstrap, Sass, UX and HCD
- Mobile development tools for cross platform dev
- Native script, Xamarin, Ionic
- Design Tools such as Adobe Suite
- JSON rest API and web socket protocol as well as GCM for android

Benefits:
- Work at one of the most exciting and growing start-ups on the continent
- Work with some of the best and renowned world class developers who will make you always bring your A-Game to your work
- Work at a place where you'll get real responsibility and have an opportunity to make an impact on businesses
- Work with a team that takes professional development seriously and will help you build the skills you need to be successful
- Work with a team that is flexible on where you work. As long as you do your work, we don't complain
- Once in a while Travel across Africa and also globally interacting with a diverse set of clients as we deploy.
- Work with a fun team that prefers jeans over suits

We're looking for someone who
- Can **work independently** and is happy to join a virtual team.
- Has a **can do attitude** and is flexible enough to take on any task we throw at them.
- Is **passionate, hungry** and eager to build Zegetech into a world class Organisation.
- Has **high professional and ethical standards**
- Is **comfortable taking and giving feedback**. We want to work with people who'll make *us* better at our jobs; people who'll force us to move a level up.
- Has a **good sense of humour** - because we'll be working hard so we better keep each other entertained
- Is a **team player**. Leave your ego at the door.
- Understands that giving up is NOT an option
- Is **curious and eager to learn**.
- Is **comfortable working in a startup environment** where we're making the rules up as we go along
- **Understands the importance of bringing an analytical mindset** to business problems

Ultimately we're looking for someone who wants to be part of something great and work with great people. Someone who wants to help us create one of the best African companies in the world. This isn't about a big pay cheque today; it's about a big pay off tomorrow.

If you're interested in applying, please send a copy of your application, **your cv and Github profile** to innovate@zegetech.com and quote " Application as a Frontend Developer" as subject as well as **Fill our pre-interview typeform on https://zegetech.com/talent.html by 10th of August 2018**
